

- Quick, healthy and delicious meal solutions
- Made from 100% Tender Beef, Lamb & Chicken
- Gluten and preservative free

Aria Farm was first established in New Zealand in 1997. It grew from the idea of a farming couple wanting to produce a healthy, convenience food using New Zealand beef and lamb.

It is from this heritage that the Aria Farm range of innovative, delicious meal solutions has been created. From those first days, the philosophy has remained the same – to provide quick and convenient, New Zealand grown, nutritious meals suitable for the whole family.

To this day, Aria Farm remains committed to continual development and supply of the best possible products, with the combination of new technology and a practical, commonsense approach.
